DISPATCHES TO THE OREGONIAN.

EASTERN DATES TO OCTOBER 11.

EASTERN STATES.

Effect of the News of Seward's Death.

WASHINGTON, Oct. 10.—The announcement of the death of ex Secretary Seward was read with regret in all quarters. The State Department building will be draped in mourning in respect to the memory of the deceased.

ALBANY, Oct. 10—The sudden announcement of the death of ex Secretary Seward has caused a profound sensation here. It was unexpected and produced wide spread regret.

Indiana Election.

INDIANAPOLIS, Oct 10—Hendricks runs ahead of his ticket in almost every county. The Republicans have a majority of four in the Senate and eight in the House, certain, with a prospect of ten majority in the House.

LATER—The Republicans concede the election of Hendricks by 500 majority, but claim the Congressman at Large and the rest of the State ticket, from 400 to 600 majority.

Niblack's majority in the 1st district, is 125. Hunter's, Republican, majority over Voorhees in the 6th district, is 605. The Republicans have advertised a mass meeting for to-morrow night, for congratulation, with Gov. Morton, Gov. Brown and others as speakers.

The Republicans claim 27 Senators to 23 Democrats and 56 Representatives to 45 Democrats—giving them a majority of 14 on joint ballot.

Re-Election of Speer.

HUNTINGTON, Pa., Oct. 10.—R. M. Speer, Democrat, has been elected to Congress from the 17th district, by 500 majority.

From Louisville.

LOUISVILLE, Oct. 10.—An excursion party of Southern business men numbering 425, from various points of Alabama, Georgia, Florida and Tennessee, are passing along the new Southern Railroad route South and North Alabama Road the opening of which they had come to celebrate. Every attention is being shown visitors by the city authorities and Board of Trade and citizens.

The Turf.

NEW YORK, Oct. 10.—At the races at Jerome Park to-day the 2½ mile dash was won by Frank Halliston's Arizona, the favorite second. Time, 2 57. The 2¼ mile dash was won by Harry Bassett, in 3:14½. In the 1½ mile race, five horses ran. Sanford won; time 2.61. The meeting closes on Saturday. There is great excitement over the 4 mile dash between Monarchist and Harry Bassett, which is on the programme, Monarchist having beaten Bassett in the 3 mile race on Saturday.

The Mexican Raids.

WASHINGTON, Oct. 10.—Col. Robert, of Georgia, and Mr. Savage of California, with twenty of the Commissioners appointed by the President to investigate depredations on the Rio Grande, arrived to-day, and had an interview with the President, who is much interested in their report, from which it appears that incursions of armed Mexican plunderers into Texas had been frequent ever since 1854, and that the stealing of cattle amounts to several million dollars. Gen. Cortina is represented as one of the most active instigators of these expeditions by which he largely profited. The military force along the border is insufficient for the protection of our citizens, and Gen. McCook, commanding on the Rio Grande, while corroborating the testimony of witnesses in regard to raids, admits his inability with the force at his command to prevent them. The Commissioners will submit a formal report to Congress and have reason to believe that the President will send it with strong recommendations, and that prompt measures will be taken to protect the citizens of our border in their lives and property.

WEST INDIES.

Strikes Over—Cable Laid—Sundries.

HAVANA, Oct. 10—The strike of cigar makers is over, the committee having agreed to a scale of wages.

BY ATLANTIC CABLE.

What will they Do About it?

LONDON, Oct. 10.—Mr. Bentwick, M. P., in a public speech last night denounced the settlement of the *Alabama* question as a dishonor to England. It was absurd that a rule should be made and held to bind England to responsibility for acts committed long before the rule had any existence. England deserved the scorn of the whole world, and would cease to hold her position among nations. At a meeting of conservatives at Castlehead, addressed by Henry Jervis, M. P., and others, the Government was censured for its conduct in the negotiations with the United States.

Royalty Visits Royalty.

LONDON, Oct. 10.—The Czarovich Alexander has gone to Vienna at the invitation of Emperor Francis Joseph.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, Oct. 10.—The acting Secretary of the United States Treasury having received information of the prevalence of cattle disease in portions of Germany, Russia, Great Britain and South America, has written to Collector Shannon to give necessary instructions to Customs officers at this port for the careful observance of existing regulations which prevent the importation of "neat" cattle or hides from Europe, unless accompanied with the certificate from the United States Consul at the port of shipment that the same are free from infection, and are the product of a section of the country where disease does not exist.

The locksmiths have been manufacturing duplicate keys to the new Postoffice boxes by request of box holders, and the Postmaster decides that such manufacture is in contravention of the U. S. laws.

At the quarterly meeting of the directors of the Union Insurance Company held this forenoon a dividend of one per cent. per month for the past quarter was declared, payable on the 14th. A year ago this company met with heavy losses at Chicago by the great fire.

Demonstrations of Respect for Seward.

NEW YORK, Oct. 11—The Union League Club last night adopted resolutions expressive of regret over the death of William H. Seward.

Oct. 11.—The building in which the *Daily Sentinel* is printed was nearly destroyed at 1 o'clock this morning by the explosion of powder, which some unknown person had placed under the press room. The press was completely demolished. The affair caused a great excitement. Crowds of people flocked to the scene. The *Sentinel* is a Conservative paper.

Death of a Newspaper Man.

DOVER, (N. H.) Oct. 11.—James K. Spaulding, founder of the New York *World*, and more recently connected with the New York *Times*, died in this city yesterday.

Lawlessness in Arkansas.

MEMPHIS, Oct. 11.—A very serious trouble between whites and blacks at Osceola, a little town forty miles above here on the Arkansas shore, which has been brewing for some days past, culminated on Tuesday evening in a severe fight. One negro was killed and several wounded. The trouble originated in the killing of Sheriff Murray some weeks since by Fitz Patrick, County Register. Fitz Patrick was to have been tried this week, and to prevent the trial coming off, it is believed he incited the negroes to arm and surround the town, when the whites armed and drove them off as stated above. The officers of the Court and some merchants with a portion of their goods arrived here late last night, the negroes having threatened to return and burn the town. The greatest excitement prevailed there at last accounts.

From Indiana.

CHICAGO, Oct. 11.—A special from Indianapolis to the *Evening Journal* says Hendricks is elected by 500 majority. The Republicans still claim the balance of the State ticket and a majority of the Legislature.

BY ATLANTIC CABLE.

From London.

LONDON, Oct. 11.—Additional military constabulary force is ordered to Lesburn, Ireland, as an anti-Catholic disturbance is threatened there.

The announcement of the death of Mr. Seward is received with great surprise, no intimation whatever of his illness having reached here. The *Daily News* in its obituary says that though Seward was unpopular there by reason of his rather peremptory bearing, yet he leaves behind him a great example of vigor, energy and success.

NEVADA.

VIRGINIA CITY, Oct. 11.—About six o'clock this morning Mrs. Gillman, an old lady, was walking across the railroad track in rear of the depot, when the train came up and caught her, knocking her down and running over both her legs. Senate adjourned.

AFTERNOON SESSION.

Met at 2 P. M. Special order for this hour being the consideration of H. J. R. No. 3 relating to the action of the Legislature of 1868, upon the 14th and 15th amendments, Constitution of the United States.

Mr. Baldwin moved to make the consideration of the resolution the special order for 5 P. M. to-day. Lost.

Mr. Strahan moved to amend by striking out the heart of the resolution. Lost: 11 to 11.

The question being shall the Senate concur in the adoption of the joint resolution.

Mr. Fay said the resolution placed the Democratic party in a singular position. The Baltimore platform recognizes the validity of the amendments, but that is progressive Democracy. If there is a Democratic party in existence now, the members of that party ought to vote to sustain the adoption of the amendments. He didn't recognize the right of the Baltimore Convention to transfer the Democratic party, body and breeches, to the Republicans represented by Gen. Jasper W. Johnson, who stumped this State two years for the Republican ticket. When the delegates were elected from Oregon to the Baltimore Convention, no one dreamed of Horace Greeley being a Democratic candidate for the Presidency, and therefore those delegates didn't reflect the sentiments of the Democracy of Oregon in voting for Greeley. He would himself vote against those resolutions, as he didn't propose to go back upon the former action of the party in this Legislature.

Mr. Strahan said he would vote against these resolutions, but not exactly for the same reasons given by the Senator from Jackson. The Democratic party is not a revolutionary party, but a law abiding party, always dealing with fixed facts intelligently and rationally. The Democratic party will make no effort to annul or abrogate those amendments as the highest judicial tribunal in the land, have recognized them as valid. He would vote against these resolutions offered to-day because they were couched in such words and clothed with such phrases as should not have been countenanced by a dignified Legislative body. They are obviously inserted as an insult to the members on his side of the house. While he recognized the validity of the Constitutional amendments, and was in favor of supporting that instrument to the letter, he could not hesitate to vote against the undignified partisan claptrap injected into these resolutions.

Mr. Moores moved to adjourn. Lost.

Mr. Baldwin regretted that though the resolutions were here, they were only calculated to fritter away the valuable time of this body without any corresponding good; not that he was afraid to meet this matter in any light, but he was opposed to this buncombe when the time of the Legislature was so valuable. He said the acts of the Baltimore Convention could neither seal his lips nor restrain his votes. Even if he subscribed to all the propositions advanced at Baltimore, yet he could see no good to be accomplished by the passage of these buncombe resolutions. They would neither destroy nor materially affect the amendments. He didn't hesitate to denounce these amendments as frauds upon the people and on the Constitution, even if they were regarded as fixed facts, and he didn't propose to go back upon the former action of his party in this matter, and he would therefore vote against the resolutions.

Mr. Myers said he was not a political aspirant, was not afraid of his record, and would not hesitate to endorse the action of the Democratic Legislature of four years ago in rescinding Oregon's assent to the fraudulent ratification of those amendments. He believed those amendments were conceived in sin and brought forth in iniquity, nevertheless they were now fixed facts, and he wished them to remain so. He said the Republican majority in this Legislature were responsible for this claptrap upon this body, and the people would hold them responsible for the time frittered away in discussion. He would oppose the question, but he only wanted to shake hands across the bloody chasm with Democratic Senators.

Mr. Dolph moved the previous question. Lost.

Mr. Strahan moved to amend that

Whereas, The Republican party assembled in Convention in the State while some of said measures were pending.

Resolved, That upon said amendments and to the best mode of reconstructing the Southern States, was a question on which loyal men may honestly differ. Lost, 11 to 11.

Mr. Strahan moved to amend that,

Whereas, Also many Republicans in this State for a long time, and while such amendments were pending, denied they were in favor of said amendments. Lost, ayes 11, noes, 11.

Mr. Fay said as that as parties in this body refused to shake hands across the bloody chasm, he therefore moved the previous question. The question being, Shall the Senate concur? the vote stood, ayes 11, nays 11, a strict party vote. So the Senate refused to concur.

The Senate adjourned.

House.

MORNING SESSION

Met at 10 o'clock. Prayer by Rev. A. F. Waller, of Salem. Absent at roll-call—Messrs. Burkhart, Collier, Craner, Olds, Grant, Hirsch, Johnson, Simpson and Washburn.

A message from the Governor stated that His Excellency had signed H. B. No. 27, providing for the construction of a State Capitol Building.

H. B. No. 25, for the election of Supreme and Circuit Judges in distinct classes, was read third time. It is provided by the bill that three Justices of the Supreme Court shall be elected on the first Monday of June, 1874, who shall continue in office, one for two years, one for four, and one for six years. It is provided that the Supreme Court shall hold two regular terms annually—one at the seat of government, commencing on the first Monday of January, and one at Portland, commencing on the first Monday of July. The salary provided by the bill is $2,000 and $1,000 annually for expenses. The election of Circuit Judges is to take place at same time, and the salary provided for them is $2,500.

Mr. Mallory explained the object of the bill, and said that, although the existing Supreme Court was as good as under the circumstances could be expected, there was yet an imperative necessity for a separate Supreme Court. Judges could act independently and untrammeled by decisions of the Circuit Courts. It is provided by the Constitution that when the white population of the State shall amount to two hundred thousand, the Legislative Assembly may provide for the election of Supreme and Circuit Judges in distinct classes. He contended that the word "may" in this provision meant "shall," and that therefore it was used so as not to prevent the change now proposed, if it was deemed desirable to make it before the population amounted to two hundred thousand.

Mr. Caples expressed a similar opinion.

The opposite view was taken by Mr. Engle, who stated that the Governor had, at a former session, vetoed a similar bill.

Messrs Simpson and Burbank spoke in favor of the bill, which, on being put to the House, was carried by 36 votes to 11.

H. B No. 16, providing for mechanics liens, came up for further consideration.

Mr. Caples said that, after consultation with the honorable gentleman from Marion (Mr. Mallory) and other friends of the bill, the following amendment to section 10 was concurred in:

"Provided, that the amount to be recovered from any owner on account of such lien or liens shall in no case exceed the contract price for such building or improvement."

This amendment was agreed to by the House, as was one by Mr. Engle, inserting an emergency clause.

Mr. Durst moved as a further amendment, that all persons furnishing material shall give notice to the owner of his intention to hold the owner responsible before he shall recover from the owner. Lost.

The bill was ordered engrossed and third reading fixed for the afternoon.

On motion of Mr. Langell, it was resolved that no member be allowed to speak on any subject longer than fifteen minutes.

H. B. No. 60, for protection of homesteads, was reported from the Judiciary Committee with amendments. Ordered engrossed, and reading fixed for to-morrow. House adjourned till 1.30.

AFTERNOON SESSION.

House resumed at the appropriate hour.

Mr. Caples gave in a substitute for H. B. 31, abolishing the grand jury system. The substitute consisted of an amendment to the act defining the duties of grand juries.

The new bill will be considered on Monday at 10 o'clock A. M.

H. B. 29, to protect wages of common labor was reported back from the Judiciary Committee and passed the House by a vote of 33 to 2.

H. B. 10, providing for mechanics' liens, passed its third reading.

Mr. Durst was the only member who voted against the passage of the bill.

S. B. 8, for the relief of Coos county, was reported back from the Committee with recommendation that it pass, and was laid on the table to be taken up in its order.

S. B. 49, to appropriate $20,000 from the Treasury for the encouragement of immigration, was reported back from the Committee with recommendation that it pass.

Mr. Langell objected to money being taken directly from the Treasury, and moved as an amendment that an appropriation be made from the Swamp and Overflowed Land fund.

On motion, the bill was referred to a Committee of the Whole House.

A substitute was presented for H. B. 62, providing for the assessment and collection of taxes.

Mr. Simpson moved the adoption of the substitute, which was opposed by Mr. Patton, who introduced the original bill.

The substitute and original bill went to a select committee.

Motion to reconsider the vote which passed S. B. No. 46, altering the date of the meeting of the Legislature, was laid on the table.

The House took a recess to visit the Willamette University.

The members were absent about one hour when the House resumed.

Mr. Thornbury reported back H. B. 41, for the construction of a State road from the mouth of Sandy to the Dalles. The appropriation was fixed at $60,000, and there were named as Commissioners, Messrs. Moster of Hood River, Weaver of Dalles City, and David Monnastes, of Multnomah county.

The amendments were adopted:

H. B. 73, to amend an act relating to inclosures.

H. B. 78, to amend General Laws relating to bridges on public roads.

H. B. 61, fixing the residence or office of County Judge and H. B. 36, concerning fees of officers, were reported against and were laid on the table.

S. B. No. 13, for the construction of Eastern Oregon and Winnemucca road was reported back with amendments, which were adopted. The amendments were adopted and the bill ordered engrossed and filed for third reading to-morrow.

H. B. No. 46, providing for the formation of Ecclesiastical corporations for the holding of Church property, came up from Committee, considered engrossed, read a third time and passed.

The following bills were considered engrossed and filed for third reading:

S. B. No. 47, locating county seat of Union county.

H. B., No. 58, making it the duty of County Clerks to procure and keep on record the plats and field-notes of Public Surveys of the United States.

H. B. No. 70, amending an act incorporating Curry county.

H. B. No. 92, for protection of minority stockholders.

H. B. No. 67, for promotion of temperance, and

H. B. No. 67, amending the act incorporating the city of Portland.

S. B No. 18, as to the compensation of Justices, was reported back with the amendment that the amount allowed annually for expenses be five hundred dollars instead of fifteen hundred.

After a discussion, it was agreed to fix the amount at one thousand dollars.

The bill was ordered engrossed as amended, and put upon its third reading to-morrow.

House adjourned at 5 30 P. M., until 9 A. M.

SATURDAY MORNING OCTOBER 12 1872

The Alabama Claims to be Reopened

One would be likely to suppose from a perusal of the cable dispatches that all the machinery that was invented and set in motion for the purpose of adjusting the recent differences between the United States and Great Britain is destined to prove nothing but a heap of rubbish to be cast aside as unfit for use in the affairs of the world The labors of the Joint High Commission and the immense amount of negotiation which followed as to the interpretation of the Convention agreed upon were, after all to be considered merely an experiment to see what sort of conclusions might be arrived at by a court created in the peculiar manner provided by that Convention, and neither party was to be bound by the result For the sake of form—for the purpose of producing the most startling effects—for the grandeur of the thing—the two Governments denominated themselves the "High Contracting Parties but the agreement which they entered into with all this magnificent solemnity, was not a contract after all The telegraphic war which the two countries waged across the Atlantic ocean for some months, about the claim of the United States for indirect damages, at a cost of $400 000 dollars to one of them alone, was not as the world had been led to suppose, an endeavor to reconcile the difference in such a manner as would enable the Geneva tribunal to proceed with the work assigned to it, with a reasonable probability of accomplishing an adjustment that would be just to both parties and avert the calamity of a war The peace-loving people of both continents, as well those who were not as those who were interested by nationality in the controversy, hoped a method had been adopted for the settlement of difficulties between nations, whereby the interests of peace would be consulted rather than the question of military power Christianity rejoiced in the belief that this last triumph of peace was the dawn of a better day and the herald of a more Christian system of administering international affairs.

It seems not to have been so understood by one of the "High Contracting Parties, at least. When the award of the Geneva Conference was announced, it appeared that the British member, Sir Alexander Cockburn, did not agree with the rest of the Court in its findings, and, therefore, did not sign the award He now comes out in what the telegram calls a "ponderous judgment, ' dissenting from the decision, which has "had the effect to create a belief that the award was flagitiously unjust to England ' And the speeches of certain other persons prominent in English politics—Members of Parliament and the like—would seem to indicate that the public mind was well prepared to receive this "ponderous judgment, and to accept its conclusions

When the arbitrators pronounced their decision the American government exhibited no gratification at the amount awarded But the American people were more than satisfied to see the principle for which their government had contended, recognized as a part of the law of nations—of these two nations at all events If the decision had been against them, although they would have felt the fact keenly, it is not at all likely that there would have been any serious thought of refusing to abide by it, and it is equally unlikely that our Government will consent to the question being reopened It has been settled honorably and fairly The settlement has been reached through the means which both parties agreed to, and England can hardly expect to justify herself before other nations if she now refuses to stand by her agreement The question between the two Governments, if any question should disturb their relations of amity, will not be, whether the *Alabama* claims were just, but whether a Government is bound by its treaties

Still Falsifying

The *Bulletin* publishes an article over the signature "Third Ward," which the editor of that paper says is from ' an earnest Republican," and in which the following bit of slander is retailed, the writer says at third hand

A well known and prominent citizen of Salem informs me that he has information to this effect A gentleman was travelling in the same train of cars with General Jasper W Johnson last spring when the latter was on his way from Oregon to Cincinnati as a delegate with all the proxies to the Convention which nominated Horace Greeley and Gratz Brown, fell into conversation with General Jasper on the way and to show his authority to cast the vote of Oregon in that Convention, Jasper let the gentleman see his credentials. They were signed by B Goldsmith W Lair Hill and L D Shattuck

All who have been in the habit of reading the *Bulletin's* editorials will at once recognize in this "communication the style of writing peculiar to the editor of that paper We do not mean to be understood that the editor wrote this communication to himself, but simply suggest the remarkable similarity of this 'Third Ward's' style that of the *Bulletin* editor. Just a mere coincidence, of course

In view of the startling fact that some anonymous person at Salem told the anonymous "Third Ward that the anonymous person at Salem was informed that an anonymous gentleman traveling in the cars with General Jasper W. Johnson had told some other anonymous person that the anonymous gentleman who rode in the cars had seen General Jasper W Johnson's credentials to the Cincinnati Convention and that the anonymous gentleman who rode in the cars said that the name of the editor of the OREGONIAN was signed to those formidable credentials "Third Ward is alarmed for the political safety of the Republican party and thinks the public ought to be forthwith informed whether or not the editor of the OREGONIAN will ' deny that he signed the credentials which General Jasper W Johnson bore to Cincinnati as his warrant to cast the six votes of Oregon in that sorehead Republican body ' and whether we did not at that time favor Horace Greeley for President

We cheerfully answer the questions of "Third Ward —for the sake of saving the party, recollect The anonymous man who rode in the cars never saw the name of W. Lair Hill on Jasper W Johnson's credentials, and W Lair Hill did not sign the credentials and did not see the credentials and did not know whether Jasper W Johnson had any credentials or not and did not then nor at any other time, favor Horace Greeley for President

Proof of this charge or a retraction will now be considered in order

We presume the *Bulletin* will do in this case as it did recently when convicted of falsifying in another matter it will fall back behind some "rule of journalism of its own inventing, by which it will pretend that an editor may rightfully and in accordance with journalistic usage, trump up some unnamed and unknown John Doe upon whom to saddle whatever untruths he may wish to put into circulation about other people and then decline to call his John Doe on the stand when proof is demanded

Fanny Fern

Yesterday morning we were called upon to announce the death of one of the most distinguished men who have figured in the political history of this country This morning we chronicle the departure of another person whose name has long been familiar to the American public, but who moved in a different sphere

Sara Payson Parton better known by the pseudonym of Fanny Fern died on the 10th instant at New York city at the age of sixty She was born at Portland Maine but her parents removed to Boston when she was of a very tender age She was educated in a school conducted by Catherine E Beecher, in which Harriet Beecher Stowe was then a junior teacher She was married to Charles Eldridge of Boston Cashier in a Bank who died leaving her in such straightened circumstances as made it necessary for her to seek employment as teacher and in other callings in all of which she proved unsuccessful Possessed of literary tastes she attempted writing but was for a long time unable to find a publisher who was willing to pay her anything for her work Finally however she obtained a hearing and was soon one of the most popular writers in the country Her first book called Fern Leaves which was merely a collection of her previously published essays, was issued in 1853 and met with immense success, seventy thousand copies being sold during the first two years After Fern Leaves, came ' Fresh Leaves' Ruth Hall Rose Clark, and some other volumes She was never a very scholarly writer, and her style was not formed after the finest models for elegance and smoothness of diction but she was piquant, sprightly and deservedly popular Her writings are sentimental but not effeminate, humorous, but never vulgar

Her father was for a long series of years, a prominent journalist of Boston, and she was a sister of N. P Willis, the Poet. Her second husband was James Parton, the Historian

The fame of Fanny Fern will not endure beyond the generation for which she wrote, but she has contributed greatly to the happiness of that generation With the freshness and frankness of a clear head and a pure heart, she won the affections rather than the admiration of those who were familiar with her writings, and the intelligence of her death will carry sorrow to thousands of hearts to which she was only known by the pleasure her pen had brought them Her readers will mourn her as a friend more than as an author

An amendment to the school law introduced into the Legislature, has been prepared by one of the gentlemen who assisted in drawing the bill and will, we understand, be forwarded to the members having the matter in hand The amendment provides in substance that in districts having more than five hundred voters the election for officers shall be held from two o'clock till six in the afternoon the judges to be appointed by the Directors before the election the voting to be by ballot and the other business of the District to be transacted at a separate meeting held for that purpose This meets the troubles in our school elections at Portland

O B McFadden, Democratic candidate for delegate in Washington Territory, is the bitterest pill the Democracy of Clarke county was ever called upon to swallow It is believed over there that it was mainly through his exertions that the act removing the Territorial Capital from Olympia to Vancouver was defeated The bill had passed both houses of the Legislature in regular form but on coming up for engrossment was found to be minus the enacting clause which proved a fatal defect The Judge's active opposition to the bill at the time, together with alleged subsequent admissions has always left the responsibility for thus defeating the will of the people on his shoulders

How are the Mighty Fallen

From a late number of the New York *Times* we learn that in addition to the impecuniosity of the National Liberal Executive Committee at New York There is also a lamentable lack of that harmony so essential to the smooth and successful running of an executive organization There is just now quite a tempest in a teapot over the ejection of Secretary Judge Jasper W Johnson, of Oregon from his official position The first intimation which Judge Johnson received of his removal from responsibility was a printed heading to the circulars of the Committee His name and that of Daniel R Goodloe of North Carolina, also a Secretary, while retained in the list of national committeemen have been stricken off as Secretaries and another member of the Committee, T C Everts of Montana, substituted

The change it is said has been unwarrantable made by Ethan Allen and no little indignation is felt against him Mr Johnson, it is said will appeal to the members of the National Committee against Allen's arbitrary action, and the latter expresses himself as indifferent, Allen is backed by Horace Greeley while Johnson owed his appointment to his personal friend B Gratz Brown and wields a considerable power among the Greeleyites on the Pacific slope

Whether Messrs Greeley and Brown will take sides with the disputants remains to be seen If so a serious division may arise between the two candidates before November

POLITICAL NOTES

It is reported that Greeley refuses to support S S Cox the coalition nominee for Congressman at large

Sumner is in Paris and does not intend returning home until after the November election Well he can be spared by the Liberal Democratic part which would be happy just now if Greeley was with him studying up the fine arts

"Standing on the soil of Kentucky I ask you who are associated in the great Liberal movement? cried Horace Greeley at Louisville and an old rooster on the edge of the crowd waking up from his doze crowed Ku Klux

I command my cause to the sober judgment of the American people said Greeley at Louisville My cause is 'elect me to the Presidency all the other causes which I have advocated may go to the dogs only elect me President

Greeley said at Newport Let all that has made alienation between us perish General Grant long ago wrote that more laconic and pregnant sentence Let us have peace Greeley does not hesitate at plagiarism any more than at swearing

Acts of incendiarism are become so frequent in various parts of the English agricultural regions that the farmers have been obliged to form themselves into vigilance committees for the detection and summary punishment of the offenders These difficulties may be but the beginning of an end which it is difficult at present to foresee

The Emperor William of Germany has recently bought a two page letter of George Washington's for two hundred dollars

Political Consistency

Washington Territory politicians particularly those who train under the banner of Greeley Tweed, Toombs & Co, have a queer way of conducting political campaigns, especially in the matter of selecting candidates and in the peculiar style of argument used to secure the election of their ticket For example Hon S Garfielde is charged with being a political trickster and changling and as being true to no party It is charged that he has been at one time for Breckinridge then for Douglas and now a Republican and therefore Republicans cannot consistently vote for him at the polls

Now Mr Garfielde frankly admits that he has in times past supported and advocated the Democracy and that he now is a Republican is proven by a service of eight years during all of which time he has steadily fought on the side He fought through two campaigns under the leadership of others namely Denny and Flanders, and each time won the victory During all that time Democracy have talked about *consistency*

To hear them just now talk of consistency is enough to make one laugh outright The very sound makes one think of Jeff Davis and Horace Greeley, Charles Sumner and Preston Brooks Cincinnati and Tammany, ' black spirits and white, blue spirits and gray '

The ' grand old Democracy of Washington Territory have presented to them just now a fine dish of ' crow, some of the same kind that the Pennsylvanians have just refused to swallow They are required to support a ticket gotten up by and including the names of some of the very men who not long since were living off the Republican party. They have got to support and be held by the very men who helped to build up the party that has given them their death blow

But we intended to call the attention of the people of the Territory to the consistency of some of the new lights of the Democracy—such men as Howe, Blinn Hewitt and others, who have joined the great apostacy The prophet Nathan, before convicting David, related a supposed case, and when he had aroused the old King's sense of stern justice then came the terrible announcement—"Thou art the man; and we may now well remind those men and the people of what had been done for them They were taken from various positions in life and raised to places of trust, honor and profit And when after a long tenure of office their places were given to others equally worthy, they turn around and denounce those who had aided them and finally go over into the enemy's camp They now talk about consistency

They say to Democrats "Forget and forgive the past, and take us into close communion And then they coolly say to Republicans ' Your candidate, Garfielde was once a Democrat He is on your side now to be sure and has been for eight years past, but how can you forget the past, how can you support a man who was wrong in times past but who is right now? And then they say, Just look at us You remember us We used to be honored and trusted members of your party. You gave us positions But two years ago we lost our offices, and now we are apostates We are all wrong *now* therefore vote for and sustain us. In the case of Garfielde remember the past, and reject him because he is *right now* But in our case, too, remember the past, and support us because we are *wrong now* For the future we shall endeavor to forget all the party has done for us, and fight it, but do *you* support us, because however wrong we are now, we used to hold office under the Republicans, and we should have remained in the party if we had continued in office So you see all the blame of our apostacy must and ought to be borne by the party who turned us out '

SATURDAY MORNING, OCTOBER 12, 1872.

CITY.

The Day of Atonement.—To-day our Hebrew citizens will celebrate their most solemn festival, the *Yom ha-Cippurim*, (Day of Covering, of seeking Protection). It is the last day of the Ten Days of Penitence, initiated by the "Days of Memorial," or of *Teruah* (of arousing the soul from its slumber to a spiritual revival) commonly called the New Year. The deeper import of the Hebrew name for the festival will appear from the translation given above; it is a day which, if attended with actual amendment, (*Theshubah*) will cover, protect the penitent through the mercy of God. The English name is derived from the obsolete English verb, to be at one, to be reconciled in harmony.

According to Jewish theology the reconciliation between the sinner and God is effected without any mediation but regret and amendment on the part of the sinner and the immediate mercy of God, as a merciful father is reconciled to his penitent child, or a master to his penitent and amended servant. This belief they support by the analogy of the natural law (of a father and child and master and servant just illustrated), impressed in the human heart, which does not assent to the sacrifice of the innocent for the guilty to appease an angry deity, and on Scriptural verses like: "I delight in mercy and not in sacrifice."—Hosea vi: 6, and Psalm xl: 7, 8, and similar passages.

The whole day is spent in worship; and in truly devout congregations worship continues uninterrupted through the whole of the twenty-four hours, from eve to eve, and the ten days of Penitence are actual realization of those terms; they are actual days of revival, attended by the three conditions of Penitence required by their teachers, viz: Amendment, Devotion and Acts of Beneficence. These acts are attended with a strict fast from eve to eve on the Holyday, and lest the people mistake this fast already as a means of reconciliation and repentance, the lesson from the Prophets, for the morning service of that solemn day, is taken from Isaiah 57, 58—a protest against fasting without actual amendment.

The Day of Atonement commenced last evening at sundown, and will continue without interruption until sunset this evening. Solemn and impressive ceremonies were held at the several synagogues of the city last evening, and will be continued throughout to-day. The day will be observed among our Hebrew citizens by the entire suspension of all kinds of secular business.

An Unaccountable Whim.—Information has just reached our ears of a most singular and unaccountable affair, which was enacted some months ago, and which still exists in this city. In the southwestern part of Portland, resides an old gentleman and his wife, whose names we do not feel at liberty to use at present, who are well known in this community. About four months ago, a son of this aged couple, being in very bad health, was advised by his physician to take a tour east of the mountains. The young man was about twenty-two years old. Accompanied by his father the son started for Idaho and Eastern Oregon. The climate, however, did not appear to agree with the invalid, who, instead of recovering, grew constantly worse, and at the end of a few weeks after leaving his home here died. As soon as practicable, the remains were coffined and forwarded to this city. The body arrived here over three months ago, but *has not yet been buried*. From several parties who reside in the immediate vicinity—all responsible gentlemen—we learn that the remains, for mysterious reasons best known to the parents, are still kept uninterred. Our informant states that the coffin and its contents are kept in the parlor, and as a matter of course a very offensive smell pervades the whole house, arising from the decomposition of the corpse. The mother, it is, said, being of a superstitious turn of mind, delusively imagines her son to be in a trance, and that he will yet return to life. So strong is she in that belief, revolting to all ordinary senses as it is, that she steadfastly refused to allow the body buried under any circumstances. The neighbors, it is said, protest in the strongest terms against this most unnatural procedure on the part of the parents, and several have expressed a decided repugnance to living in the vicinity. At the last account the body was still kept exposed in this shocking manner. Altogether the case is very singular, and we venture to say, has no parallel in the history of this State. If our information is correct, the case will be investigated.

The Stabbing Affair.—We have been placed in possession of the following additional particulars concerning the recent stabbing affair at Vancouver: The affair grew out of jealousy on the part of Brady, the man who did the stabbing. Brady, it seems, was a married man, but as there existed certain domestic differences between he and his wife, the two did not live either happy or constantly together. Some weeks ago Brady and his wife separated. A few days since he heard that another man named Tharp was on very, and as he jealously supposed, improper terms of intimacy, with Mrs. Brady. Last Wednesday Brady, while passing along the street, happened to encounter Tharp, whom he accused of being too intimate with his (Brady's) wife. But very few words passed when Brady drew a knife and stabbed Tharp several times, the last thrust he inflicted, the point of the knife was broken off, that portion of the blade remaining in the wound. Brady was arrested at once and lodged in the jail. Tharp was removed to one of the hotels, the blood washed from his person and a physician sent for. Examination of the wounds proved them to be serious but not dangerous. Yesterday morning Brady was examined before a Justice of the Peace on the charge of assault with intent to kill. After a hearing of the case, he was held to answer before the grand jury in the sum of $1,000. He was committed to jail in default of bonds.

Oregon Directory.—This is the title of a contemplated work soon to be in course of compilation, and to be published by S. J. McCormick, the pioneer Oregon publisher. Mr. John Mortimer Murphy, whose late invaluable work on Puget Sound, has been received with much favor, will superintend the collection and collation of the historical and statistical portions of the work. The Directory will be profusely illustrated with sketches of some of the leading, prominent scenery of the State, and will embrace in its general outlines, a general sketch of the State; its physical aspects, geology, climatology, botany, zoology, commerce, manufactures, societies, public buildings, productions, and all other subjects on which information is required. Mr. Murphy will start east of the mountains next Monday morning to collect the necessary materials to be used in the work. In the course of the next few months he will travel through and over all the various sections of the State for the same purpose. We call the attention of the public to the advertisement to be found elsewhere.

Locomotive.—Another fine, first class locomotive was brought up on the bark *Melancthon*, which arrived Thursday evening from San Francisco. This locomotive was manufactured expressly for the Oregon and California Railroad. She was built at the Baldwin Locomotive Works, Pa., and is one of the best in use on the road. This locomotive will be called the Eugene. The drivers are about five feet in diameter, and the weight of the locomotive and tender is about 53 tons. To-day the *Melancthon* will be hauled over to the east side wharf, and the locomotive will be hoisted by screws and blocks, and rolled out on the wharf, after which the Eugene will be taken to the car shop and undergo the burnishing process before taking the road.

Geographies Wanted.—A peddler of geographies and a Pacific Coast atlas, could certainly do a flourishing business if he were to travel through the West, and especially in Ohio. A paper published in Zanesville, O., the *Courier*, was thrown into the Oregonian's box at the Postoffice the other day, bearing this quaint, but very lucid address on the wrapper: "Puget Sound county, Oregon." Think of that, Oh ye land of Webfoot! The editor and publisher of a journal causing such an inscription to be printed on the wrapper of a paper and sent broadcast to the world, ought to be compelled to take night lessons in geography for six months. Such ignorance is unpardonable.

Delegation from Vancouver.—It is probable that the steamer *Vancouver* will come over this evening from Vancouver and bring a number of passengers, both young and old, who desire to attend the circus. As the circus company will leave next Tuesday for the Washington County Fair, and from thence will proceed southward through to California, the Vancouverites will not have a more favorable opportunity than the present affords of seeing the performances.

Loading.—Wheat was being placed on board the bark *Loch Dee* yesterday afternoon. About 150 tons will be received aft, which will be sufficient to steady the vessel, while the remainder of the cargo in the forward part of the vessel can be discharged.

Sailed.—The bark *Garibaldi* sailed yesterday morning from this port, bound for Hongkong. She carried away a large quantity of flour, lumber, etc., and over 200 passengers. A large number of Chinese were on the dock "to see their friends off," and the ship sailed away with colors flying at the mast head and amidst the fizzing of a thousand fire crackers, which were exploded in honor of the departure.

Bark Falkinburg.—This bark, which sailed with lumber from this port, arrived at Honolulu on the 11th ult. She discharged her cargo, received a load, and sailed for this port on the 24th ult. The *Falkinburg* is now due at this port, and may be expected to arrive at any time. She brings a cargo of sugar and tropical fruits.

Narrow Gauge Locomotive.—The bark *Almatia* brought from San Francisco a small locomotive to be used on the Walla Walla and Columbia River Railroad. This is a narrow gauge locomotive, and is the second one brought up for that company. The bark also brought up a number of car wheels to be used on the same road.

Contract Let.—The contract for the improvement of the channel of the Upper Columbia, was let yesterday by Major Robert to J. B. Montgomery for the sum of $48,000. The contract includes the blasting out of John Day rock, some rocks at Devil's Head, and 400 cubic yards of stone at Umatilla rapids.

Torn Off.—Last evening as the west side train was coming down Fourth street, a wagon collided with the rear passenger car. The step and a portion of the platform were torn off by the collision. Fortunately nothing more seriously resulted than a dismantled wagon and a torn pair of car steps.

Extinguished.—The forge chimney of the blacksmith shop of F. Neibur, on Second street, was discovered to be on fire yesterday about 12:30 P. M. Several men with buckets succeeded in quenching the embryo conflagration, without sounding an alarm. The damage was very slight.

Natural Curiosity.—We learn that Dr. Haskell, the advance agent for Wilson's Circus, has recently purchased for a large sum of money a "Sacred Flying Calf," with wings on each shoulder. This great natural curiosity will be on exhibition at the matinee this afternoon.

Quartz Rock.—A number of sacks of silver bearing quartz rock were, a few days ago, brought from some of the mining camps of Idaho. This quartz will be shipped on the steamer to San Francisco to be assayed and the per centage of the precious metal ascertained.

Fair Ball.—The Clarke County Fair closed at Vancouver yesterday evening. The whole affair concluded last night with a grand ball, which was well attended and proved to be a pleasant social occasion. The fair was regarded in every respect as a success.

For Lapwai.—Company E, 21st U. S. Cavalry, under command of Capt. Burton, left Vancouver yesterday morning on the Cascades boat. They are destined for Fort Lapwai, to which post the company were assigned a short time since.

Railroad Iron.—Five hundred bars of railroad iron for the N. P. R. R. were brought up on the bark *Almatia*. The vessel will complete discharging her miscellaneous freight, when she will proceed to Kalama and discharge the iron.

Quartz Stamps.—A large number of stamps to be used in a quartz mill, and other machinery, in some portion of Idaho, were shipped to the Dalles yesterday, from whence it will be forwarded.

Assessment.—At an adjourned meeting of the Board of Directors of the Good Templar Hall Association, an assessment of 15 per cent. on the par value of the capital stock was levied.

Hymen.—Marriage don't go begging this month. There have been thirteen licenses issued from the office of the County Clerk during October. Who can beat that?

For Larceny.—Mr. J. Beamer, was before Judge Denny on a charge of the larceny of $40. The case was, however, continued until this morning.

PERSONAL.

Dr. Haskell, advance agent for Wilson's circus, returned last evening from Oakland. This morning he leaves for Hillsboro and Lafayette. The Doctor is a jolly, whole souled fellow, and we can heartily commend him to the kind offices of the public wherever he may chance to visit.

Yesterday an old friend, Mr. Theodore Kirchoff of San Francisco, looked in upon us. His visit was a most agreeable surprise. Mr. Kirchog is the author of many very beautiful poems that have appeared from time to time in the German periodicals, and with his brother, Christian Kirchoff of Altona, has published two handsome volumes.

We were favored with a call last evening from Lieut. Medorum Crawford Jr., son of Capt. Crawford of this city. Lieut. Crawford belongs to the Second Regiment of U. S. Artillery. He was born in Yamhill county in the year 1843, was appointed to a cadetship at West Point by Congressman J. R. McBride, in June, 1863, and graduated with creditable distinction in 1867. He has been stationed for one year at Fort Vancouver, two years at Alaska, and two years at the Presidio, near San Francisco. Orders have been issued from the War Department transferring the Second Regiment from the Presidio to Fort McHenry, Maryland, and the regiment will start East as soon as relieved. Lieutenant Crawford arrived on the *John L. Stephens* on a furlough of thirty days, and will visit the many familiar scenes of his boyhood before his return to his post of duty. Mr. Crawford, we believe, is the only native Oregonian who has yet graduated at West Point.

AMUSEMENTS.

There will be a grand matinee performance at the circus pavilion this afternoon at 2 o'clock.

The mammoth circus pavilion was again crowded last evening to witness the many daring feats of the performance. This great company appears to grow in public favor, and receives at the hands of our people a most substantial and flattering patronage.

We understand that some of the prominent singers, together with some of the best musical talent of the city, are rehearsing for a grand concert to be given at the Masonic Hall on Tuesday evening next. The celebrated Vivian whose mirth provoking songs and representations have already delighted so many, will also assist. The concert is to be given to aid the Good Templars of this city in erecting their new hall on the corner of Alder and Third streets. The object is a laudable one and should receive the encouragement of our citizens. Fill the hall Tuesday evening, aid a worthy cause and enjoy yourself heartily.

SPECIAL CHURCH NOTICES.

Full notices of services in the Unitarian Church will appear in to-morrow's issue. Rev. Mr. Stephenson, of Chicago, will occupy the pulpit in the morning; and the pastor in the evening. In accordance with a plan for some time under consideration, the service will be by "Question Box," as explained in to-morrow's notice.

No gentleman knowingly trusts an unskillful tailor with the "got up" of his clothes, but seeks those who are reliable in every way. In fashionableness of cut, and neatness and durability of make-up, it is well known that the work of Fishel & Roberts, corner of Washington and First streets, is unsurpassed. They are now in receipt of a choice selection of fall goods, and it is therefore recommended to those wishing the best to call. Boys' clothes a specialty.

The old saying is, "What everybody says must be true," and everyone says that Beck & Waldman have the largest and best selected stock of the latest styles and patterns in gentlemen's Clothing and Furnishing Goods in the city of Portland. They have the largest variety of Boy's, Youth's, and Children's Suits, all which will be sold according to the times. Please call and satisfy yourself that we will not be undersold by any one.
BECK & WALDMAN,
Corner Front and Washington streets.

They Have 'Em.—If you have made up your mind to array yourself in a new outfit, and are desirous of getting the latest styles, best goods and lowest prices, you cannot do better than call and select from the fresh importations which Mr. Scharf has been buying in San Francisco for the house of J. O'Neill & Co., No. 95 First street. They have, without doubt, the finest goods ever offered to the public. Gaze in the windows; go further, look inside. Comment is unnecessary.

A protruding toe is not a pretty sight, and is never seen where children wear SILVER-TIPPED Shoes. They will save half your shoe bills. For sale by all dealers.

TOUR OF THE DIRECTORS OF THE NORTHERN PACIFIC RAILROAD.

The honorable Board of Directors of the N. P. R. R. returned from their extensive tour through Washington Territory Thursday evening, and are now established in the Clarendon Hotel. They look hale after their rapid visit and the climate and scenery had a salutary effect upon them, apparently. In the pursuance of our avocation we called upon some of the gentlemen yesterday, and were cordially received. We found them willing to give all material information without any assumptions of importance and they were devoid of any of the "hedge" so carefully cultivated by persons of small mental and financial calibre. The party left this city nearly a fortnight ago, and started by

SPECIAL BOAT

for Kalama, where they tarried one night and then took the cars to the end of the track, where they were met by carriages and taken to Olympia. Their tarry in the classic city was brief, and the twenty four hours subsequent to their arrival saw them ploughing down the Sound on board the handsome steamer *North Pacific*, the mail boat plying to Victoria. There were no persons on board but the members of the party. They visited all the bays, harbors and inlets on Puget Sound, and extended their tour to Victoria. A portion of them visited

LAKE WASHINGTON,

near Seattle, one of the handsomest bodies of water in the world, and the supposed future fresh water naval station on this coast. This being examined thoroughly was given its due proportion of praise, but the choice between the harbors was bewildering, and the entire party were enraptured with what they deemed the finest archipelago on earth. As the major portion of the tour was made by daylight they had an opportunity of witnessing the finest panorama of water, forest and snow clad mountain peaks in the world, and which extends the entire length of the Sound. They visited the principal

SAW MILLS

on the Sound, examined the machinery, made inquiries of the extent of the business and its future prospects, and the information received exceeded their anticipations. They traveled four hundred miles by sea in four days, and returned to terra firma highly delighted with what they had seen. They returned to Kalama last Saturday evening, stayed there until Sunday evening, then took the *Emma Hayward* which conveyed them to Sandy Island, above Vancouver. The cause for leaving that day was the fear of a fog which was anticipated. From there they went to the Cascades and Wallula, intending to proceed as far as the

SNAKE RIVER.

But owing to the low stage of the water at Wamley Rapids, they did not care to proceed further, so they returned to the Dalles. The evening they spent there was an interesting one as they had an opportunity of inspecting the Rev. Mr. Condon's fine cabinet representing the geology and paleontology of Oregon and Washington. All expressed themselves delighted with the scenery of the Columbia river. Many of them have done Europe and South America, but nowhere did they behold anything to be compared with the Columbia in its diversified beauty. The country skirting the Upper Columbia made a very favorable impression upon them as being well adapted to grazing and agriculture. The entire trip has been a source of pleasure, and they predict for this Northwest coast a future as brilliant as any portion of the continent.

THE BOARD OF DIRECTORS

held a meeting yesterday in the large office of the O. S. N. Co., and we hear that they discussed a great variety of questions connected with their enterprises on this coast and with the construction and administration of their roads and property. All our readers would like us to state where they located the terminus, and as this is a subject in which we are interested, we shall give them the full benefit of our knowledge with much pleasure. As they would not make a confidant of us, we would not ask them. We insert this information at this point of the narrative in order to check any disappointment in the *caput* of our readers. But we have several good morsels left, for we are creditably informed that strong parties have made

FAVORABLE PROPOSALS

to the Directors to complete the road to Puget Sound and build a road from the Columbia to Lake Pen d'Oreille.

It has been incidentally mentioned to us that the Directors contemplate the ordering of a survey at an early day, of a direct route from Portland up the Columbia.

The entire party will take the steamer *John L. Stephens* for San Francisco this evening, and after tarrying a few days will return to the East.

In conversation with some members of the Board we learned that they would return East with a larger sense of the value of this country and of the worth of their enterprise than they came out with, and all are delighted with the climate, soil, timber, and water of the country, and they will, no doubt, do their utmost to soon place our magnificent country in the proud position it deserves.

John Wilson's Great San Francisco Circus and Roman Hippodrome, will exhibit at Hillsboro, October 15, 16, and 17; Lafayette, 18; McMinnville, 19; Dallas, 21; Albany, 22; Corvallis, 23; Harrisburg, 24; Junction, 25; Eugene, 26; Drain's Ranch, 27; Oakland, 28; Roseburg, 29; Canyonville, 30; Grave Creek, 31; Rock Point, November 1; Jacksonville, 2; Ashland, 4; Cottonwood, 5; Yreka, 6; Fort Jones, 7; Rough and Ready, 8; Callahan's Ranch, 9; Trinity Center, 10; Weaverville, 11; French Gulch, 12; Shasta, 13; Redding, 14; Red Bluff, 15; Tehama, 16; Chico, 18. The management trusts that the public will not confound this mammoth organization with a so-called (?) circus traveling the same route, representing that we are not coming, that our establishment is too large to travel overland, but they may rest assured that we will perform at every one of the places mentioned on the dates advertised. Newspapers at any of the above places will copy this with local until day of arrival of agent.

Defend Your Health.
The fall of the leaves not only symbolizes human decay, but promotes it. In other words, the effluvia from dying and rotting vegetation is unfavorable to health. To this and other causes—especially excess of moisture in the atmosphere—may be ascribed the prevalence of acute disorders of the stomach, bowels and liver at this season. Every person of bilious habit is liable to be *very* bilious in the fall. Then, too, all persons whose digestion is weak and more than ordinarily dyspeptic, and individuals predisposed to colic, diarrhœa and dysentery, are particularly likely to be attacked by these complaints. The most complete defense against each and all of these distressing ailments is bodily vigor. To obtain this blessing in all its plenitude where it does not exist, Hostetter's Stomach Bitters is earnestly recommended. It is the peculiar office of this preparation to reinforce and regulate the important organs which digest and temper the food, and convert it into life-sustaining blood. Bodily vigor depends upon the nourishing qualities of that fluid, and the nutritiousness of the blood depends upon the functional activity and regularity which it is the special province of the Bitters to secure. Hence it is the best defense of health at this season, and indeed at all seasons. When dysentery, diarrhœa, bilious colic, and other violent affections of the bowels, become epidemic, as they often do in certain parts of the country in the fall, it will be found that persons who have been wise enough to resort to the Bitters as a preventive are almost invariably exempted from the scourge.

RELIGIOUS INTELLIGENCE.

PERSONAL, LOCAL AND GENERAL.

[From the Catholic Sentinel.]

We learn that the health of Rev. Father Piette, Chaplain of St. Mary's Convent of this city, who is now in Canada, is slowly improving, though he is not yet sufficiently well to return here.

Only three Sisters arrived here a short time since from Canada, to reinforce the Sisterhood of the Order of Jesus and Mary in this State, whose ranks have, within the last year or two, been greatly depleted by that fell destroyer, death.

Many of our readers will regret to learn that Rev. Mother Veronica, Superioress of St. Mary's Academy and Mother General of the Sisters of the Holy names of Jesus and Mary on this coast, who has been re-called to Canada, will not return to this State.

Rev. F. N. Blanchet left this city last Thursday morning for the purpose of visiting some of the southern missions. He will officiate at St. Stephen's Chapel, Roseburg, on to-morrow, Sunday the 13th; at St. Joseph's Church, Jacksonville, on Sunday the 20th; and at St. Michael's Church, Grand Ronde Indian Reservation, on Sunday the 27th inst.

THE TERRITORIES.

Money orders are now being issued at the Postoffice in Olympia payable in Germany

An Indian was shot in a house of ill fame at Port Townsend on Friday of last week

One firm at Port Townsend, last week, sold $7,000 worth of goods to an Alaska trader

Hon S Garfielde will discuss political affairs before the people at Claquato W T, on Wednesday, the 16th inst, at 1 o clock P M

More improvements have been made in Olympia the past year in the streets buildings of various kinds, than in the three years previous

A delegation of Indians, consisting of fourteen chiefs from the Grand River Agency Dakota, and eighteen chiefs and one squaw from near Fort Peck, Montana, are on their way to Washington

Steilacoom is improving by building new sidewalks There are seven penitentiary convicts engaged in grading the streets, and all the lawyers in the place are building sidewalks in the absence of other business.

General Crook has issued a congratulatory order to his command for the victory of Captain Mason, of the 5th cavalry over the Apaches and Mohaves. Forty were killed without loss on the part of the troops.

A. A. Manning, Secretary of the Farmers' Club at Olympia, has received from the Department of Agriculture at Washington, a quantity of winter wheat called Arnold's Hybrid No. 9, imported from Canada. It is said to be very hardy and prolific. The Commissioner desires it to be carefully tried and the result reported.

Bro. Struve of the Olympia *Courier* grows poetic over the Pennsylvania election. He says "On yesterday Democratic hopes and aspirations bloomed and flourished with a rare magnificence and tropical splendor Alas, to day they are withered, collapsed and shriveled, nipped and blasted by the early October frosts in Pennsylvania. Oh, those wicked frosts!"

The supporters of Judge McFadden have boasted that he would receive the support of the principal Mill Companies on Puget Sound A gentleman well posted in Territorial politics, and who has recently made a tour of the Sound, gives it as his opinion that Garfielde's majority in the lumbering districts will exceed that of two years ago

A wonderful discovery was made recently, six miles west of Carribou, Colorado, of an enormous silver ledge, or system of ledges so locked and woven together as to be practically one ledge It measures 63 feet in width, and can be clearly traced over five miles, carrying ore the entire distance that assays from $75 to $1,000 per ton The surrounding formation is primary granite and the ore carries galena block and gray sulphates A large number of men are already at work on it It is the sensation of the whole mining region.

BRITISH COLUMBIA.

About 80 men are working on Germansen creek and taking out pay. About 250 are on other creeks.

From the *Colonist*: Two cases of small pox were reported at New Westminster on the 5th instant. But it was thought afterwards to be erysipelas.

At the firemen's election in Victoria on the 7th inst., 134 votes were cast, and Wm Lohse was chosen Chief Engineer and Frank Sanders Assistant.

Gardiner, with a large mail, and Sylvester with an express and $8,000 in gold, arrived at Victoria from Omineca on the 6th. They left Manson Creek September 19th.

The cargo of the *Naworth*, just arrived at Victoria, includes a case of between 300 and 400 vols presented to the library of the Mechanics' Institute by the friends, in England, of Mr T. Allsop.

Messrs. Wallace & Hutcheson's schooner *Dominion* arrived at Victoria on the 7th, from the whaling grounds. The party killed eleven whales and secured nine. They bring about 250 barrels of oil and a ton of whalebone.

Several parties were getting ready to start for the Osalinka river, Peace River, Smith having brought in news of good prospects found there A large number of men, among whom are Sam Wilkinson, Fred Hart, Cariboo Harper and Vital, have left with a year's grub for the Rocky Mountain portage to winter there, and in the spring start for Lizzard River

While Mr Sanford Fleming and party were on their way from Jasper House to Tete Jaune Cache their attention was attracted, while at full speed, by what appeared to be a quartz lead. On closer examination it was discovered to be an extremely rich silver lead; in fact, Mr. Fleming says the ore is the richest he has ever seen. He has brought [illegible] some 10 or 12 pounds with his baggage as specimens.

Mr. Pease, the newly appointed Dominion Engineer has received instruction to proceed at once with the erection of the customhouse and post office on Government street lot, the penitentiary at New Westminster, and the Cape Beale lighthouse. He is also instructed to cause one of the Sister Rocks to be removed. Mr. Pease will resign the position of Surveyor General immediately and will occupy offices in the Masonic building until the Dominion buildings are completed

Idiosyncrasies of Juries.

[From the N. Y. Post]

It is proverbial that they do everything better in France than elsewhere, and the latest illustration is at hand. It appears that a young man named Loormel has been indicted for the offense of "holding intelligence with the enemy" during the late war, and was brought before the Assize Court of Versailles for trial. A woman named Meyer was accused of being his accomplice, and it was through the quarrel of the two in relation to the money received for the information given, that their treasonable conduct was discovered. M Jules Favre appeared as counsel for the woman this, being the first brief he had taken in a criminal court since he resigned the portfolio of foreign affairs. Before the trial began, however, a paper was handed to the Chief Justice, saying, in effect, that several members of the jury felt an unconquerable loathing for M Favre, and that they did not think that they could overcome their prejudices for any prisoner defended by him. The lawyers, and with them M. Favre, protested, but the court decided that the jury manifested a prejudice which rendered them unfit to try the case, and therefore put it over until the next session.

This novel action on the part of the French jury, if adopted in this country, would give the jurors a chance to do the lawyers as the lawyers do them. As matters are conducted now, the lawyers have a fair field, and if they find a prospective juror of common intelligence, or who reads the public prints, or who for any real or suspective cause is thought to be unfavorably inclined to either side, they at once act upon him with all the advantages of their position and ignominiously return him to the shades of private life But if Messrs. Jones and Smith of the jury, had an opportunity themselves to judge of the characters of Messrs Snooks and Nooks, of counsel, all this would be changed The attorneys then would be as anxious in respect to the opinions of the average jurymen concerning themselves as concerning the culprit on trial It is doubtful, however, if such a change would hasten the course of justice in our courts. As it is, the law is slow, but were the rule adopted that the lawyers must be as acceptable to the jurymen as the jurymen to the lawyers, all prisoners of more than twenty five years of age would be more likely to be released by death than by a verdict of any sort

Tooth picks have become an important article of trade. One tooth pick factory in Canton, Me, furnishes more than all other work in town. Over 100 cords of poplar wood have been hauled for its use this season, and converted into tooth picks

It is stated that a number of officials of the English Postoffice intend to disgrace themselves by holding an "indignation meeting" in consequence of the intention to employ forty young ladies in the department

The late war is said to have caused the death of 116,000 French soldiers and (according to the Augsburg *Gazette* not the Berlin Statistical Bureau,) of 200,000 German combatants.

An eminent French physician maintains that rheumatism affects the brain as well as the joints, and makes its victim unsociable, uncivil, cross, dejected and forlorn.

The rate of taxation in Illinois for State purposes this year will be seven and a half mills on the dollar, a reduction of one and one half mills from that of last year

Of seventy three prisoners for trial at the last Liverpool Session, only five could read and write well Seventeen could neither read nor write

Gold in New York to-day, 114

Portland Legal Tender rates, 87c buying 88 selling

Wheat in Liverpool 13s 2d., and 13s 4d

The bark *Webfoot* is on the way from San Francisco to this port with an assorted cargo

The little schooner *Mila Bond* was towed down this afternoon by the steamer *Vancouver* to the mouth of the Wallamet. She has a cargo for Tillamook Bay

The bark *Forward* is now lying at the wharf of Moffet & Stephens, and will soon be ready to receive cargo for Hongkong

The steamer *Oriflamme* will sail this morning from San Francisco to Portland

The barks *Melancthon* and *Almatia* have both arrived from San Francisco, and are now discharging their cargoes at Flanders' wharf

The steamship *John L Stephens* will sail this evening for San Francisco with passengers and assorted cargo

The steamer *California* sailed last evening for Victoria and way ports. She carried away the following freight 6,174 qr sks flour; 9 cs canned goods, 6 pkgs stationery, 3 pianos; 68 lbs apples; 3 pkgs dr apples 10 pkgs mdse; 168 kgs, 9 bbls sugar; 6 cs boxes, 2 pkgs hams, 664 sks feed, 2 sks corn meal 14 pkgs household goods; 4 wagons; 11 pkgs clothing; 40 mats rice; 7 pkgs salmon, 8 sks sweet potatoes, 10 bxs candy; 4 cs coal oil, 44 bbls soap, 10 chests tea, 2 cs yeast powders; 2 castings 4 bxs tobacco; 29 sks wheat, 8 pkgs metals, 20 bgs salt, 5 sewing machines; 20 bales paper; 20 bxs spices; 5 cs cheese; 8 kgs butter; 2 bxs eggs; 3 sks 10 cs coffee 6 bales blankets; 12 cs lard; 5 bbls whisky; 10 cs brandy; 10 kgs molasses

No unusual complaint is made in financial circles to day, though there is no apparent relaxation in the scarcity heretofore noted seems unabated But notwithstanding the present scarcity of money, it is observable that a very cheerful feeling pervades commercial circles, denoting every confidence in the future, which is expected to bring with it an early improvement in our monetary affairs In fact, there is little apprehension felt by any with regard to the future, the concern of all being to meet present obligations, and thus keep, for the time being, the channels of business unobstructed. That we are likely soon to obtain relief from our mines wheat crops, and other quarters is the conviction of all

Movements in wheat are limited and the only change noted is a very slight tendency of prices to stiffen up a little under late advices from foreign markets, and for this there seems to be but little reason, as under no imaginable rates there could the surplus of this country be placed in those markets in many weeks

California advices estimate the value of grain shipments from that State during the three months to date at over $4 500 000, and still not more than one fourth of the crop has been moved The entire surplus wheat crop for the year of the two States of California and Oregon is reckoned at 33 500,000 bushels or 20 100 000 centals This is sufficient to load nearly 1 000 average sized ships, and the mere mention of this fact is a sufficient answer to the complaint of a want of tonnage. The only question is, will ships ever come to carry away this enormous quantity? Assuredly not all, but our large crops and the high freight will have a tendency in future years to draw vessels in this direction at a corresponding season of the year that they may avail themselves of these rates of charters From the San Francisco *Alta's* New York commercial letter we obtain the following

"The tonnage movement to your port from Eastern ports for the current month shows an increase over the previous one especially in assorted cargoes, of which there were five against three last month The movement comprised six vessels, registering 6,860 tons, against four vessels of 4 867 tons in the corresponding month last year The movement for the past quarter foots up 20 vessels of 23,574 tons, against 13 vessels of 18,132 tons in the same quarter last year, while for the nine months the total movement is 66 vessels registering 74,532 tons, against 48 vessels of 55 026 tons in the same period last year—an increase of 17 vessels registering 19 826 tons, or for a capacity for over 500,000 sacks of wheat."

Our home markets will be found unchanged, and the quotations we give below are the latest Dry goods are firm coal oil is advancing vegetable and fruit are in full supply produce of all kinds is liberally received and prices seem slightly firmer, but no material advance is noted

TO THE UNFORTUNATE.
NEW REMEDIES, NEW REMEDIES

Dr. Gibbon's Dispensary,

623 KEARNEY STREET NEAR COMMERCIAL San Francisco Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated

DR. GIBBON has the pleasure of announcing that he has returned from visiting the principal Hospitals of Europe and has resumed practice at his Dispensary, 623 Kearny street, corner of Commercial, San Francisco, where his old patients and those requiring his services may find him

The Doctor has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life In this horrid situation thousands suffer until death closes the scene Let parents, guardians friends, attend to those who are suffering with any of these horrible, life-destroying maladies—see that they are cared for and cured before it be too late. Send them immediately to DR GIBBON, a physician who has made private diseases his especial study for years, and who is certain to cure the most inveterate case, without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of those charlatans

Seminal Weakness.

Seminal Emissions, the consequence of self abuse. This solitary vice, or depraved sexual indulgence, is practiced by the youth of both sexes to an almost unlimited extent, producing with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz Sallow countenance dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the faces, furred tongue, fetid breath, coughs, consumption night sweats, monomania and frequent insanity If relief be not obtained, should apply immediately, either in person or by letter and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr G will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME by addressing a letter to Dr Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions By inclosing Ten Dollars coin, in registered letter through the Postoffice or through Wells, Fargo & Co., a package of medicine will be forwarded to any part of the Union

All communications strictly confidential.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who, with bogus sworn to certificates dupe the unwary One of the self styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen and became too lazy to work at their trades. Some are tinsmiths, shoemakers, newspaper carriers, intelligence office keepers, etc The only way to avoid imposition is to make inquiry—it will cost you nothing, and may save you many regrets; for, as advertising physicians in eight cases out of ten are bogus, there is no safety in trusting any of them until you know who and what they are. Dr Gibbon does not deceive people by exhibiting bogus titles, certificates, pretended patients' letters, etc. Dr Gibbon will satisfy persons who may call at his offices of his ability to treat diseases that he proposes to cure.

Address DR. J F. GIBBON, 623 Kearney street, corner Commercial, San Francisco, Post Office Box 1,957. REMEMBER TO PUT BOX 1,957 ON THE LETTER. Consultations FREE
